Teernary Operator

- const result = true ? 'value 1' : 'value 2';
  console.log(result);   → value 1

- const result = false ? 'value1' : 'value 2';
  console.log(result); → value 2

- instead of writing
  ```
  if (weather.IsDayTime) {
       timesrc = 'img/day.svg';
  } else {
       timesrc = 'img/night.svg';
  }
  ```

  write this

  ```
  let timesrc = weather.IsDayTime ? 'img/day.svg' :
                                    'img/night.svg';
  ```
